

Mark "Dr. DREAM" Peebler - BIO

As an entrepreneur, humanitarian and international speaker, **Mark "Dr. DREAM" Peebler**, has over 20 years experience guiding, mentoring and empowering students, organizations, and corporations in building, reaching and sustaining their full potential.

He has refined an approach to creating personal reality that has worked for years in his own life experience. Mark's program, Dream the Biggest DREAM, supports each individual's efforts to manifest the life of their dreams. He has worked one on one with people and also traveled the world teaching his program and changing lives.

People who see the video or photos and have not been part of one of the workshops or seminars often ask, "What's the deal with the cape?"

In Dr. DREAM's workshops and seminars he starts off wearing the cape and sharing about how it represents the magic of our ability to create our own reality. At a certain point in the program, he explains that we all have "Dr. DREAM" inside us and we are all capable of holding a vision, intending it, taking action and then manifesting it in our lives

He completes the rest of the program without the cape.

Visit www.DreamTheBiggestDREAM.com for more information on Mark's program and the ongoing support Dr. DREAM provides.
